LODGING POSSIBILITIES

Stick Marsh Bait and Tackle Apartment Fellsmere 772-571-9855 15 minutes from the Stick Marsh
Right next to the bait shop, just off Highway 512. In Fellsmere, off I-95 (exit 156)

Great location; very convenient; good price. It sleeps 6 and has TV, refrigerator, and microwave. The only negative item is that local code prevents a stove being in the unit, so cooking is limited to the microwave. There is an outside grill, however.

Motel 6 Palm Bay 321-951-8222 25 minutes from the Stick Marsh; On Malabar Road, west of I-95 at Exit 156.

This is a 'fishermen's motel'. Acceptable, but nothing special except a good price. The backside rooms have outside electrical hookups for battery charging. A little tight on boat parking.

Jameson Inn Palm Bay 321-725-2952 30 minutes from the Stick Marsh; On Palm Bay Rd., east of I-95 at Exit 176.

This is the 'best bet'. It is new, nice and close to many eating places and a Wal-Mart Super Center. This is the place if you bring a lady. It has outside plugs for battery charging at the base of some of the parking lot light poles.

Howard Johnson Melbourne 321-768-8439 35 minutes from the Stick Marsh
East on Highway 192 (New Haven Avenue) at I-95

Courtyard by Marriott Melbourne 321-724-6400 35 minutes from the Stick Marsh
East on Highway 192 (New Haven Avenue), 1.5 miles east of I-95

Ramada Oceanfront On the beach 321-777-7200 45 minutes from the Stick Marsh
On Highway A1A

All major chains have units in Vero Beach to the south, about 45 minutes away.

- Suggest you call for pricing. Look in your Yellow Pages for toll-free numbers for the hotel/motel chains.

- Most have good boat parking, except the beachside places. Motel 6 and the Jameson Inn have outside electrical outlets for boat battery charging.

CAMPGROUNDS

ENCORE, a large campground chain, has a very large, fully equipment facility at the intersection of I-95 and SR512 (Exit 156, the Fellsmere turn-off). It is on the SE quadrant of the intersection. The tel. numbers are 722-589-7828, or 800-828-7081. It is sometimes referred to as being the Vero Beach ENCORE facility. But, its location is actually 8 miles north of Vero and Exit 156.
